Great stuff! Thanks.

## Ex. 5 Deliberative Process (DP)

Maybe we ought to talk about whether the slides should be combined or just two separate presentations separated by sample media for now.

Thanks Mark. I don't have Chemsketch. Is there another software that opens the image?

If not, I have the original Wang et al. image you found in there. Which would do for now.

Subject: Solvay n,m compounds

Here is a Chemsketch of the Solvay n,m compounds. I drew 1,1; 1,0; 0,1; and 2,0 only.

I cannot use Chemsketch right now so I cannot put these into a PPT slide.

Mark
